Join us to receive an overview of the North Dakota State Standards for English Language Arts and Mathematics and correlating instructional strategies. Find out how you can strengthen your role in the school and provide improved support for teachers and students by understanding the changes happening in instruction and assessment. A certificate of workshop completion will be offered to all participants for proof of professional learning hours.

This opportunity has been made available by the North Dakota Regional Education Association (NDREA) through the REA Common Core State Standards Paraprofessional/Substitute Teacher Grant from the North Dakota Department of Public Instruction.
